

MEMORANDUM FOR: Colonel White

25 January 1954

SUBJECT : Administrative Plan - Project [REDACTED]

25X1A

1. I recommend approval of subject plan only because it apparently reflects current practices and philosophies. However, I personally consider it perfunctory, inadequate, and of little value.

2. I also recommend a complete restudy of the objectives, purpose, and benefits which can be achieved or assisted by the preparation of thoughtful administrative plans on subsidy activities. My views on this subject are reflected in the attached memorandum which I suggest be used to initiate a restudy of subsidy administrative plans in general.

3. To illustrate the futility of this plan it is clearly apparent that the plan has been prepared on the basis of alleged facts, presumptions, and objectives of the Agency as submitted in April 1950. There is absolutely no indication of any current information or recent reappraisal of progress or objectives of the project and the development of an Administrative Plan which would be consistent therewith.
